A new passenger car has recently been finished, in through by a few, however, and on motion of Dr. Ritchey, if we remember right, some additions were through the construction of which, the comfort of passengers was defive in each of the chief consideration. Three moving families called at my house on Sunday evening last, two miles and a half west of Indianapolis, and received entertainment; two of the families had a separate room and lodged by placing their own beds on the loor. In the morning, after paying their bills, one of the men of the families that ledged together, said he had lost a small wallet pocket-book out of his pantaloons pocket containing some twenty-five dollars and several notes of ceipt in full for his State and County tax. John P. Dunn vs. Samuel Merrill having been with- hand. The bed clothes were examined, as well as the room where they slept and other places where there was a probability of the pocket-book being lost. Previous to the loss being made known, the man who lodged in the same room with the man who lost the pecket book, returned to of Indiana, I have levied upon, and will expose to public sale for Indianapolis, professedly for the purpose of hunting a lost cash in hand, at the court house door in the town of Indianapolis, dog, and got money changed answering the amount reported to have been lost, with Mr. S. A. Fletcher, Exchange Broker. Previous to his return from Indianapolis, the whole party went on. I gave them assurances if the money was found, that it would be kept for them. Greatly to my surprise I have since learned, that they have reported on the road that the money was lost at my house to satisfy debt, interest and costs, I will then and there offer the fee and I must have got it. They are moving to Iowa, and expect to pass Crawfordsville, Covington and Danville, Illinois. My friend Mr. James Johnson to whom the report was made on the road to Indianapolis afterwards met on the road the man who had gone after his dog, and who the man who had gone after his dog, and who their services. The money the man got in exchange from Mr. Fletcher was silver. The whole affair looks to the like a conspiracy to get the man's money at the expense of my reputation.

This is to certify, that on vesterday morning I received money, in exchange, from a man who said he had returned to Indianapolis from a short distance west, where he had staid overnight, in search of a dog he had lost, which rected to a paragraph in the 39th number of the Ameri- and the defendant now withdraws his plea herein, and lars. FACTS FOR THE PEGPLE.

Inductive Philosophy. T is a fact the character of a man is judged of by his dress and personal appearance.
It is a fact that there is a great difference between a good fitting coat, (i. e. one that sets smooth in the back.) and one that displays taste, elegance and refinement: any ordinary good tailor can cut the one, but it takes an Artist tailor to cut the other. It is a fact that a tailor should know how to give his customer a ood shape in order that he may add dignity to his appearance.

It is a fact that N. B. Starr has opened a tailoring establishment few doors east of the Palmer House, and next to Mr. Ramsay's Cabinet Shop.
It is a fact that Mr. Starr has had twenty-five years experience in It is a fact that he has been a patentee and teacher as a system
